In the Knowledge Economy

Knowledge and Art

Anja Puntari & Günther M. Szogs

An abstract digital artwork featuring a complex, swirling pattern of thin, translucent lines in shades of red, grey, and white. The lines are intertwined and form a dense, organic structure. Scattered throughout the composition are numerous small, semi-transparent dots in yellow, green, and blue. The overall effect is one of dynamic movement and intricate detail.

BE LONGING
CAN SAVE US
(PROBABLY)

Be Longing can save us (probably)

Think Wrong
